Leave this part as it is

Choose your desired charging model

7. Go to next page and confirm

The screenshot shows a web form titled "Services" with a red header. It contains two sections: "Message Scheduled Duration" with a dropdown menu set to "DAY", and "Selected Dispatch Time" with "Hour" and "Min" dropdowns set to "01" and "00" respectively. At the bottom are three buttons: "Back", "Confirm" (highlighted with a red square), and "Cancel". A blue callout box on the right contains the text: "Go to next page, revise everything and press confirm".

8. Congratulation, You have made your first lite app

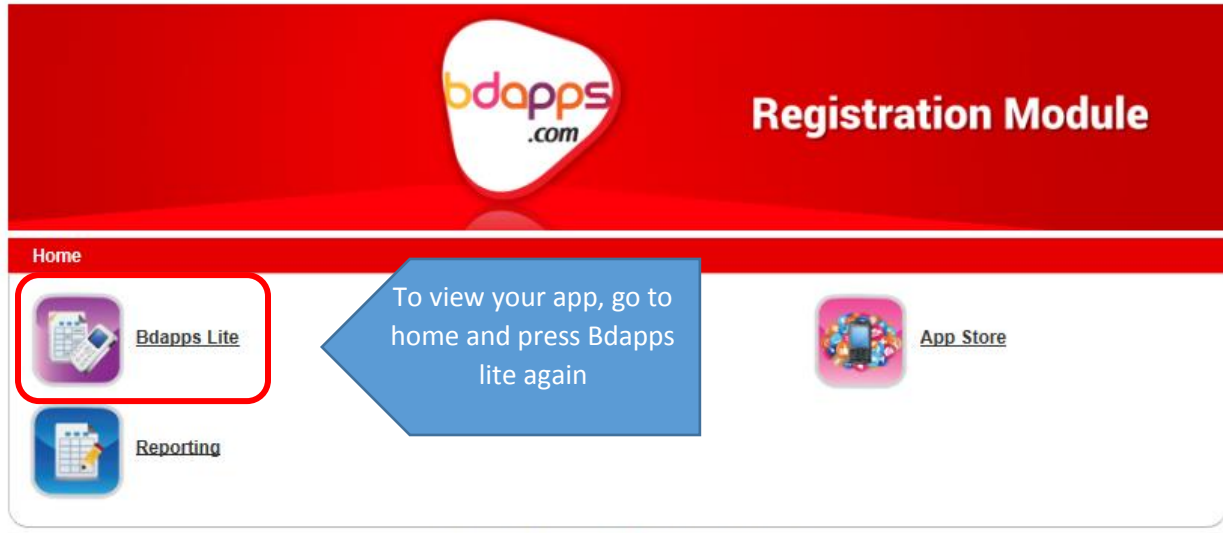

Application creation is successful & sent for administrator's approval

Use My Applications menu to manage your Applications.

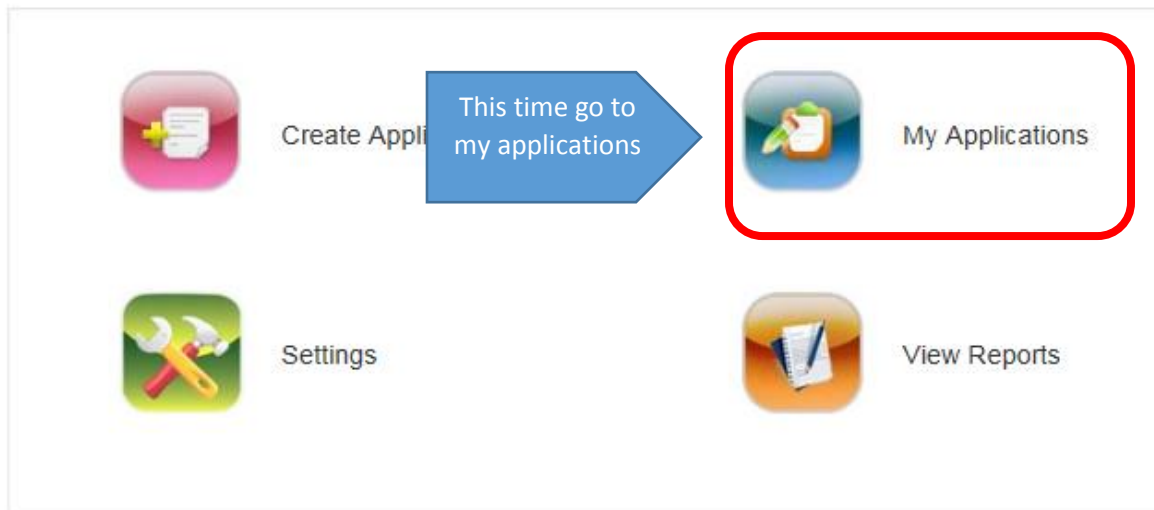

[Check how customers can use your application here](#)

[Learn More](#)

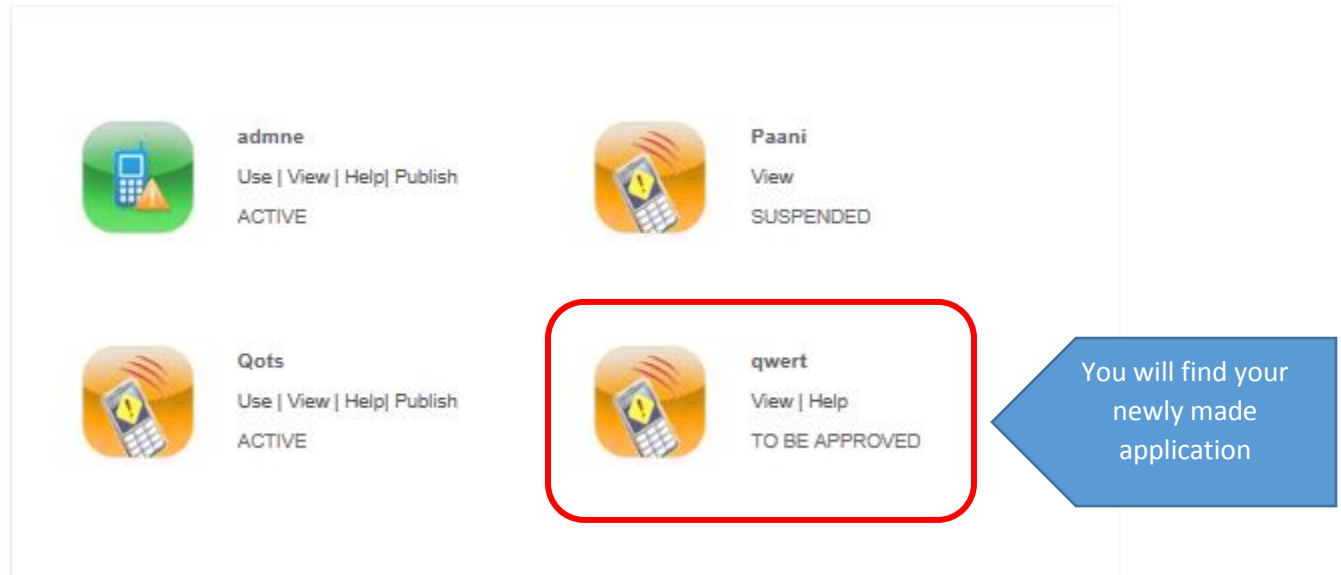

9. Go to home and then Bdapps Lite again

10. This time, press My applications

11. There is your newly made application

12. There are 3 states your app can be

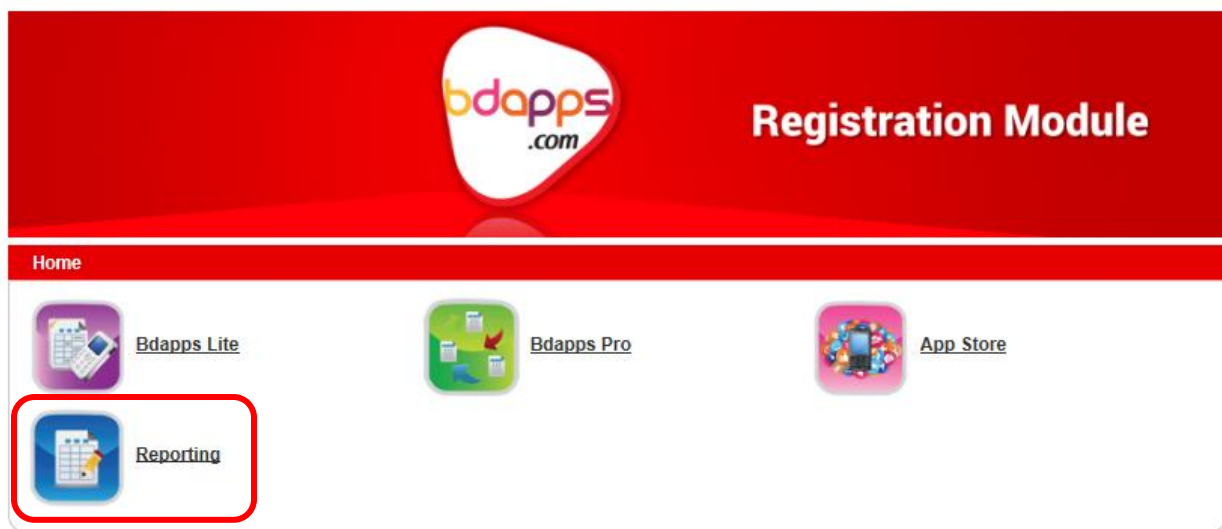

- a. To be Approved, means admin will check
- b. Approved, admin already checked and approved
- c. Rejected, means your app has something that does not go with our guidelines

13. After the admin approves your app you can test it yourself first

14. Then you push contents (sms you want to send)( see another PDF how to do that)

15. Grab your subscribers( type "Start Qwety" and send it to 21213)

16. Check your income in reporting panel

Select the type of report you need
